ADVENTURE SERIES BUMPERS

For enthusiasts looking to customize their truck with a tough, high-clearance, customizable modern bumper from a trusted name, look no further than Smittybilt's Adventure Series Bumpers. The winch capable front bumper enhances the truck's styling, provides high-angle tire clearance off-road, and allows for installation of a 30" Light bar and up to 4 additional pod lights. Designed and manufactured in America, Smittybilt delivers the Adventure Series Bumpers with a lifetime structural and 5-year finish warranty.

- A** Form fitting, tucked design compliments new truck styling with clean lines that enhance the OE designs while adding improved functionality
- B** Heavy duty- 3/16 steel construction protects the vehicle's vital components and add strength where it matters
- C** Customizable panels around lights are paintable and allow the customer to color-match to their truck
- D** Provision for (1) 30" light bar (single or double row) and up to (4) 2x2 pod lights
- E** High clearance design increases approach angles for improved off-road capability
- F** Includes 2 welded d-ring mounts
- G** Winch-ready out of the box
- H** Compatible with factory parking sensors and radar cruise control
- I** Lifetime structural warranty, 5-year finish warranty

ORION BUMPER

Looking to upgrade your vehicles factory appearance with a modern, sleek look? The Orion Bumper offers heavy-duty, front-end protection without the extra bulk. This form-fitting bumper will complement the look of your Chevy® and is designed to provide your truck with added utility. Two reinforced D-ring mounts alongside the optional winch mount tray fits most standard size winches up to 12,000lbs. This system allows you to mount up to two 6" lights behind each side panel and one 20" light bar in the center of the bumper for increased visibility in low light situations. Constructed from quality cold-roll steel and finished with a black powder coat.

- All new modern/sleek custom fit design
- Designed for easy installation
- Press formed/ deep drawn construction
- Cold rolled steel plate
- E-coated / powder-coated/5 yr. finish
- Geomet coated hardware
- Two d-ring mounts / recovery points
- Add protection to front end
- Fits up to a 12K winch
- Provisions for light bars (two 6" and one 20")
- Lifetime structural warranty

Optional with or without bull bar feature.

COMMAND SERIES DUAL-MOTOR AUTO STEPS

For Jeep and truck owners looking to add style to their lifted vehicles, Smittybilt introduces Dual-Motor Electric Steps built to surpass the competition through its features and strengths. Featuring all-weather performance and legendary reliability with a 600-pound capacity on each side, the powerful steps automatically deploy and retract.

Made with safety in mind, the built-in resistance sensors will stop operation if an obstruction is sensed, preventing damage to the steps' motors or injury to passengers. When not in use, the running boards tuck under the vehicle, protecting rocker panels. Additionally, each step package comes with an override switch so that when the vehicle is on a trail or on a lift being serviced, the switch will deactivate step deployment, preventing any unintended damage. Sturdy end caps are installed to protect steps and reduce debris build-up.

Smittybilt's Dual-Motor Electric Steps provide standard features that upgrade customers' vehicles, remain price competitive, and offer ease of use alongside a reliable five-year warranty.

- All-weather performance
- Dual-motor functionality
- Handles up to 600 pounds of load capacity
- Step automatically deploys or retracts with the opening or closing of the vehicle door
- Overheat protection
- Five-year warranty
- Powder-coated black military-grade aluminum
- IP68-certified rating, the running board remains watertight when submerged for longer periods, while built-in resistance sensor stops the progress of the steps if an obstruction is detected
- Tough end caps reduce debris build-up while highlighting a low-profile, integrated LED light system adding visibility and a sharp contrast
- Improve ground clearance, full running board retracts when not in use, tucking under the vehicle and protecting its rocker panel

Designed to handle up to 600 pounds of load capacity

ANGULAR DROP STEPS

The Smittybilt cab-length Angular Drop Steps offer a dual-purpose protection and functional vehicle entry. Matching the newest generation vehicle stylings, the Angular Drop Steps come with vehicle-specific mounting brackets and hardware, no drilling required. The step's angled design offers the vehicle clean and clear side protection. Its wide step and unique hexagon design enhances the look of your vehicle and provides essential grip. The strength and durability of the full-steel construction is highlighted by a black powder coat finish that boosts corrosion resistance while accenting a tough and rugged modern look. Our innovative design is one of Smittybilt's largest footprints when it comes to nerf steps. The Angular Drop Step pad offers greater stability with its 13" x 4" size compared to our traditional Nerf Steps that are 10.5" x 2.5".

- Full steel construction, offers strength, durability and confidence
- Large stepping area at every door, 13" inch stepping surface measuring at 4" inches deep
- Available in cab-only configuration
- Black powdercoat finish adds protection to the vehicle while off-roading
- Modular brackets allow for simple adjustment and easy installation
- Functional vehicle entry for lifted vehicles, practicality while maintaining tough, rugged appearance
- No drill, direct fit

HD PIVOT TIRE CARRIER

The Smittybilt HD Pivot Tire Carrier not only fits a 40" spare tire, but the innovative design adds strength to the factory tailgate and prevents flex, rattling, sag, and potential damage to your vehicle. Its fully customizable tire mount can be fine-tuned for height or backspace, and the adjustable tilt allows you to get extra ground clearance when working in tandem with an open or slanted top.

STRONG - Carry up to a 40", 135 lb spare tire without tailgate sag or buckling

CUSTOMIZABLE - Adjustable positions, improved departure angle and ability for use with an open back or slant-back top

EASY TO USE - Maintains easy single action of opening and closing of the tailgate without rattles or vibrations

BEDGUARD™

ACCESSIBLE, LOCKABLE, DURABLE FOLDING BED COVERS

Smittybilt knows how important it is to protect your cargo from theft and weather damage. That's why BedGuard™, with its lockability, EPDM weather seals along with its aerodynamic fit, and easy folding retraction is the only choice. Flush-mounted, this solid matte black surface features a low-profile design that highlights the lightweight, multi-functional connected panels, which can remain in a propped position for quick bed access and are easily installed or removed depending on need.

In today's ever-challenging world, knowing your equipment is stored and secured with the BedGuard™ and tailgate in place is a comforting thought. With the BedGuard™ installed, given the flat, smooth surface placed over the bed, the sweptback appearance makes better airflow and that quickly translates into better gas mileage for every journey. Smittybilt BedGuard™ folding truck bed covers are ready to go the distance, with a 20-minute installation, powder coated finish, 5-year warranty and great value, now's the time to get covered up!

- Low-profile flush mounting design featuring easy folding, connected panels, with quick truck bed access and improved gas mileage from BedGuard's™ flush aerodynamic fit
- An attractive fiberglass skinned surface, smooth light grained matte black finish that complements the top of every truck bed and provides a sleek premium look
- Secure and discreet patented locking feature within the bed cover so customers can utilize the truck bed as an additional area to protect valuables
- Water-resistant UV stable bed cover/protection adds an extra layer of protection from elements
- 20 minute installation with quick open and close operation. Designed so the truck bed can still be utilized as needed, folds back quickly to a propped position for complete bed access

APOLLO SERIES BUMPERS/STEPS/ACCESSORIES

The Apollo Series of exterior protection accessories for Jeep JL has arrived and provides end to end protection for the vulnerable sections of your Jeep tub. Boulders and trail hazards are no match for the front and rear bumpers, fenders, and side rockers that make up the Apollo line. What sets Apollo series apart from the competition is the unique overlapping steel tube and steel plate design which combines maximum strength with the ultimate ability to customize and match Apollo to your unique style. The Apollo Series of exterior protection accessories is backed by a lifetime structural and 5-year finish warranty.

ALL-AROUND PROTECTION

The Apollo Series is a complete body protection solution featuring a cohesive design across all of the accessories including front and rear bumpers, front and rear fenders, and side rockers.

STRONGER AND LIGHTER

The overlapping steel tube and steel plate design is stronger and lighter than traditional bumpers, utilizing DOM tubing and steel plating while minimizing excess weight.

BUILT-IN CUSTOMIZATION

Removable steel plates offer the ultimate customization opportunity to match Apollo to your unique style.

BACKED BY SMITTYBILT LIFETIME WARRANTY

Smittybilt is confident in the quality and durability of all it's products - and the Apollo Series of exterior protection is no different with a lifetime structural warranty and 5-year finish warranty.

STRYKER BUMPERS & STEPS

Next time you take your Jeep Wrangler JK, JL, or Gladiator JT out on the trails, make sure you have a trail ready front bumper to help tackle the outdoors. The Stryker Bumpers are a modular bumper that gives you the option for a full width, when you purchase the optional wings, or a stubby look for the front bumper. It also includes integrated d-ring points and an overrider that accepts a 10" or 13" light bar to help you see the trails better. Just in case you or a fellow enthusiast get stuck you can mount up to a 12k winch on this bumper to help out in a jam.

STRYKER FRONT BUMPER

STRYKER

The Smittybilt Stryker Modular front bumper for Jeep Wrangler JK/JL/JT models comes with integrated D-ring, overrider with a 10" & 13" light bar provision, lift points and winch mount that will accommodate up to a 12,000 lbs. winch. This bumper is built with 3mm deep formed heavy-duty steel featuring modular wings with light provisions and aggressive, ergonomic styling. The aerodynamic stamped design minimizes drag while giving your Jeep a refined and rugged look. It's the ultimate level of performance for rock crawling or everyday driving.

- Direct Fit
- 3mm deep drawn formed steel
- Winch compatible up to 12k
- Modular wings sold separately (Part# 76731)
- Integrated d-ring and lift points
- OE fog light provision
- Integrated overrider with 10" & 13" light bar provision

STRYKER REAR BUMPER

Smittybilt's Stryker rear bumper is a perfect match with the modular front Stryker bumper. Ideal for rock crawling or everyday driving, blending strength with modern, aerodynamic styling and providing multiple options for supplemental lighting. Deep draw press-formed from 3mm cold rolled steel, the aggressive, stubby design allows for extreme off-roading while offering significant weight savings over standard steel. Integrated lift points and 3/4 D-ring mounts makes recovery a breeze.

- 3mm deep drawn formed steel
- Integrated d-ring and lift point
- Fits up to 3/4 D-rings (sold separately)
- Auxiliary backup light cut outs
- Removable mesh panels for customization
- Raised corners for increased departure angles

ATLAS

ATLAS BUMPERS

The Smittybilt Atlas bumpers have gone through extensive design and testing to meet stringent international pedestrian safety standards. As a result, these bumpers are extremely strong and functional as well as being stylishly chiseled. The rear bumper utilizes a cam-style pin adjustment for ensuring perfect gate stowing every time. Re-opening the gate requires minimal effort and the double latch will eliminate accidental opening.

ATLAS BUMPERS

XRC GEN2 BUMPERS

The XRC Gen2 bumpers have been completely redesigned with more aggressive styling and heavy duty features, giving you the ultimate performance for rock crawling. These stubby bumpers provide increased clearance and have angled corners for more aggressive approach angles in extreme conditions – perfect for vehicles running oversized tires. The redesigned solid D-ring and jack point mounts are welded on the inside and out, and feature an integrated recovery point for easy access. This bumper also allows the use of the OE fog lights. The winch plate has been placed lower for greater airflow to the radiator, while the overrider is 1.75" diameter and has integrated mounts for additional lighting.

The modular nature of the rear bumper allows you to add a bolt-on tire carrier to the bumper. The XRC Gen2 is also available in the light texture finish. See the following pages for details on the entire line.

SRC GEN2 BUMPERS

The SRC Gen2 bumpers have been completely redesigned for greater fender-to-fender protection. Manufactured from 3/16" cold rolled steel, the bumpers feature corners that extend to match the factory fender lines. The raised corners allow for better entry and exit angles in extreme conditions.

The bottom and sides have been reinforced with replaceable PP+TPO slip strips, which provides an extra 5/16" of damage protection. The redesigned solid D-ring mounts are welded in the inside and out and feature an integrated recovery point for easy access. Each rear bumper features two bright 6" LED lights and a class III, 2" receiver hitch that is incorporated into the bumper and bolts directly up to your factory mounting points. The modular nature of the bumper allows you to add a bolt-on carrier that fits up to a 40" tire and can be easily opened and closed with one hand. See the following pages for details on the entire line.

SRC GEN1 FOR TJ / YJ / CJ

These heavy-duty bumpers are designed for off-road use and abuse. Durable powdercoat painted 2" x .120" wall tube protects your front end from those large rocks or boulders. Each bumper has sloping ends for greater tire travel and enhanced entry and exit points. Just like the front, each rear bumper has a 3/16" solid plate center section which is designed to contour around an oversized tire to give you the maximum tire clearance when opening and closing your tailgate. Each rear bumper features a class III, 2" receiver hitch that is incorporated into the bumper and bolts directly up to your OE points. Includes two D-ring mounts for those sticky situations (D-rings sold separately)

- Manufactured from 2" x .120 wall tube
- Solid mount D-rings - welded on the inside and out!
- One-piece welded design
- Class III 2" receiver hitch
- Two Stage Matte Black Texture Finish Powdercoat
- Smittybilt Advantage Warranty

SLANT TIRE CARRIER ADAPTER KIT

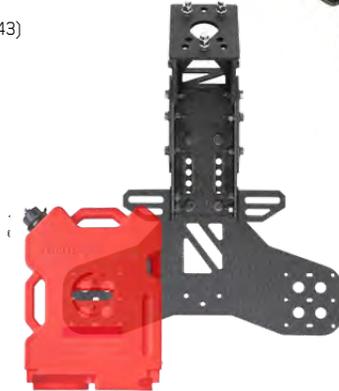

Spare tire carriers in their conventional, upright positions are a necessity for every Jeep, whether on the road or off, but when the terrain gets extreme and your standard hard top comes off, Smittybilt's Slant Back Tire Carrier Kit allows you to move your spare tire into an aggressive, 45° pre-runner position.

- Designed for use with Smittybilt's XRC Gen2 Bolt-On Tire Carrier (#76857), Cargo Restraint System (C.RES) or JK Bowless Tops
- Manufactured from 3/16" cold rolled steel, weighs 8 lbs.
- 1" diameter hardened pin
- Easy, bolt-on installation. All hardware included
- Compatible with Rotopax® gas/water can and off-road jack mounts, if used with XRC Gen2 Bolt-on Tire Carrier (#76857)

PLEASE NOTE: Combination of Pivot Tire Carrier (#2843) and Slant Adapter (#76857-05) is not compatible with Smittybilt Slant Back Top.

SRC PIVOT HD OVERSIZE TIRE CARRIER

If you are running oversized tires on your 07+ Jeep Wrangler JK you need a full-size spare tire, but perhaps you don't want to run an aftermarket rear bumper with an integrated tire carrier. Smittybilt has the solution with their Pivot Heavy Duty Oversize Tire Carrier.

- Maintains easy single action of opening and closing of the tailgate
- Strong monoblock aluminum construction eliminates tailgate sag
- Adjustable tire mount with 37" maximum tire size, up to 135 lbs
- Forged chrome mounting brackets – 30% stronger than steel
- Protective EPDM gaskets included to protect factory finish
- 1" diameter hardened pin and hardened hinge points
- Third brake light mount included
- No drilling required - you can maintain OE bumpers, if preferred
- Mounting points for brackets to mount trail jack.

Mount (#2844) and Trail Jack (#2722) sold separately
 PLEASE NOTE: Combination of Pivot Tire Carrier (#2843) and Slant Adapter (#76857-05) is not compatible with Smittybilt Slant Hard Top (#618702/617702)

HD PIVOT TIRE CARRIER

The Smittybilt HD Pivot Tire Carrier not only fits a 40" spare tire, but the innovative design adds strength to the JL factory tailgate and prevents flex, rattling, sag, and potential damage to your vehicle. Its fully customizable tire mount can be fine-tuned for height or backspace, and the adjustable tilt allows you to get extra ground clearance when working in tandem with an open or slanted top.

STRONG - Allows a Jeep JL to carry up to a 40", 135 lb spare tire without tailgate sag or buckling

CUSTOMIZABLE - Adjustable positions, improved departure angle and ability for use with an open back or slant-back top

EASY TO USE - Maintains easy single action of opening and closing of the tailgate without rattles or vibrations

- Strong monoblock cast aluminum
- Single, reinforced hinge plate replaces factory hinges on tub and tailgate
- Adjustable tilt tire mount: Adjusts up/down, in/out, vertical/slanted
- Third brake light and back up camera provisions included
- Mounting holes for optional trail jack mount (Smittybilt Jack Mount #7744),
- CB antennas and tie downs
- Robust aluminum exoskeleton runs to center of tailgate
- Works with factory or OE bumpers; fits 40" spare tire with factory bumper
- Internal gusset/brace adds structural rigidity and supports aluminum JL tub
- 18-month research and design process with extensive testing
- Easy to install: No drilling required

STINGRAY VENTED HOOD

Smittybilt's state-of-the-art SRC Stingray Vented Hood will not only give your JK a more aggressive look, it functions to keep your engine cooler than that of its OE counterpart. Manufactured from 0.8mm steel, combined with a thick underbody insulation mat and ability to accept factory hardware, this hood is precision made and here for the long run.

The hood is supplied with a premier black finish e-coat, so it's ready for paint without any further preparations. Even though it's built tough, Smittybilt has ensured your safety by retaining the factory crumple zones, and has it covered with their Advantage Warranty.

- A** Vents hot gases out of engine bay - keeps your engine cooler than its OE counterpart
- B** Precision construction from 0.8mm steel
- C** Thick underbody insulation mat
- D** Accepts factory hardware. Hood nozzles included
- E** 0.2mm black finish e-coat that's ready for paint
- F** Retains the factory crumple zones
- G** OE hood latch/hood mount fitment

XRC GEN2 ARMOR

Smittybilt's XRC GEN2 Armor the new line of XRC JK bolt-on fender flares were specifically engineered to provide the maximum protection and clearance needed when you're pushing your rig through the toughest conditions.

Each XRC GEN2 Armor is powder coated for immediate use and durability or they can be painted to color match your ride. XRC Fenders are streamline designed to help increase suspension articulation while maintaining the street-ability look. Less is more when it comes to XRC GEN2 Armor, when the OE fender does not meet your needs.

- Maximizes wheel well clearance and provides ultimate protection
- PP+TPO slip strips provide 5/16" additional damage protection
- Integrated Halo fog light and turn signal for front fenders
- Includes optional fender extensions
- Allows articulation room for up to 40" tires
- Sold in pairs

SRC CAGE KITS FOR JK, TJ

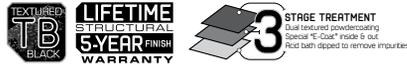

Smittybilt's reinforced cage kits are everything you'll need to strengthen your factory roll bar into a solid foundation. We start off with 1020 .120 Wall DOM tubing which is one of the strongest materials available. Each kit includes the Knuckle System that attaches to the factory roll bar, using a unique pivot and fastening point which creates the strongest and the most durable mounting system available for your Jeep. All cages are engineered to bolt on directly and require no modifications to the vehicle. This ensures a rock solid install while creating one of the strongest cage kits available.

- Manufactured from 1020 .120" Wall DOM and made with 1.75" strong tubing material
- Built-in tubular grab handles provide easy entry and exit points when getting in and out of your vehicle
- Knuckle attaches using a unique pivot on one end and Grade 10 fasteners on the other, making it one of the strongest mounts available
- CNC-machined to exact specifications to ensure a rock solid mount
- Satin black powdercoat finish with 5 year limited finish warranty
- Requires modification to factory roll bar covers
- 5-Year Finish / Lifetime Structural
- Padding kit included

SMITTYBILT IS PROUD TO OFFER THE MOST ADVANCED SOFT TOP MATERIAL IN THE INDUSTRY...

Smittybilt's all ProT3k fabric offers exceptional cold-weather performance with ability to handle frigid temperatures. The 37 oz. multi-layered, wrinkle-free material is 24% thicker than OE specs and has three layers of features:

Top Layer: Exterior striped outer canvas with sleek European styling

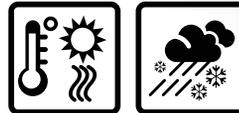

Center Layer: Core of rubber/PVC provides waterproof protection

Interior Layer: Luxurious cotton canvas lowers ambient road noise

Our traditional Black Diamond canvas has been (and still is) the stalwart workhorse of soft tops, but if you want to take your Jeep into the extremes, look no further than ProT3K:

BOWLESS COMBO TOP KIT

THE MOST ADAPTABLE JEEP TOP ON THE MARKET - NOW AVAILABLE AS A COMPLETE KIT

The Bowless Combo Top Kit from Smittybilt is the most adaptable Jeep top on the market. If you're hitting the trail and clouds roll in unexpectedly you can quickly transform your Jeep so it is protected with a weatherproof full top. When the sun returns, simply zip out the side and rear windows and you're back to crawling in the open air again.

To make it even easier to enjoy this remarkable top, Smittybilt is now offering the complete Bowless Combo Top kit, which includes everything you need to install it on your JK.

- Functions as primary full top – Convertible to extended top with removable side/rear windows
- DOT-approved tinted vinyl windows
- Easy storage and packing of side curtains
- Heavy duty buckle system prevents flapping
- Front internal storage compartments for easy access
- Self-correcting zippers run smoother and last longer
- Seams and stitch holes are heat-sealed to prevent leaking
- Top and accessories can be purchased separately if needed

Available in two choices:

- 1) Black Diamond: Marine grade, OEM diamond style material
- 2) Premium PROT3K multi-layered, wrinkle-free fabric (for 4-door JKs)

Fully open for hot, summer days

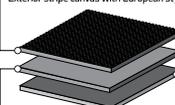

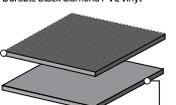

Partly opened for warm days

Closed tight for cold weather

OE-STYLE BOW ASSEMBLY

Smittybilt offers a variety of OE-style replacement soft top parts for the 07-18 Jeep Wrangler and Unlimited for a fraction of the cost from the OE Dealer.

If you've damaged your bow assembly or just need a door surround for either the driver or passenger side of your Wrangler, you can count on Smittybilt to get your soft top back to its OE-quality.

- CNC bent to exacting specifications
- Powdercoated to match OE finish
- Uses existing factory locations
- Some drilling or modifications required

NOTE: Converting an OE hard top to soft top will require door surrounds, (above) bow assembly and tailgate bar.

SOFT GOODS

Smittybilt's now offering a complete line of OE quality soft goods accessories for the 2007-18 Jeep Wrangler & Unlimited. All of our soft goods start out digitized and are then cut from a CNC plotter which guarantees you'll receive a perfect fit every time. All of our Smittybilt materials are pressed out to our specifications so you can be assured you get the highest quality with the best finish possible.

A EXTENDED TOP

EXTENDED SHADE TOP WITH SKYLIGHTS

Smittybilt Extended Shade Top with Skylights is a multi-use mesh cover that provides protective shade for passengers yet zips away to allow full sun when they want some rays. Heavy-duty UV-and-mildew-resistant nylon material fends off the heat and glare of midday while allowing cool air to flow through the compartment. When it's time to open up, the front and rear sections zip out independently and tuck away into a water-resistant center pouch in seconds.

- Mesh protects passengers from direct sunlight, heat and glare while allowing airflow
- Proprietary front and rear sections zip open independently and tuck away when not in use
- Conveniently stays on with hard top installed
- Heavy-duty UV-and-mildew-resistant nylon webbing resists tears and flapping
- Mesh top can stow inside itself in its VELCRO® enclosure pocket when removed for easy storage
- VELCRO® attachment straps ensure snug fit and easy installation—no header channel required

MESH SIDES AND REAR

Smittybilt is proud to introduce their Mesh Sides and Rear for the Jeep JL 4Door. The mesh sides and rear allow you to enjoy the open air from the shade of your Jeep's passenger compartment and is made from durable PVC-coated mesh that is resistant to both ultraviolet rays and mildew. Installs easily using heavy-duty VELCRO® straps. No tools are required and fits under standard hard tops.

- Can be used with hard top installed
- Durable long lasting PVC coated mesh material
- Installed with Heavy-Duty VELCRO® Straps
- No tools or hardware needed for installation
- Reduces heat and glare of the sun while allowing cool air to flow through. Reduces wind noise.

C·RES

CARGO RESTRAINT SYSTEM

C·RES CARGO RESTRAINT SYSTEM

When you're charging through the hammers, the last thing you want is your gear flying out. To avoid this, look to Smittybilt to provide you with a cargo restraint system. The C·RES top is manufactured out of OE soft top material, which is durable and will last you a lifetime. With a rear zippered curtain you're not limited to the size cargo you can carry.

- Mounts into the factory belt rail channel and straps around the factory roll bar for perfect fit
- OE diamond black finish
- Industrial grade zippers

Please note: TJ/YJ applications require factory tailgate channel*. JK applications require Smittybilt tailgate bar (or factory tailgate channel)* and factory door surroundt.

G.E.A.R. SEAT COVERS

The ultimate storage solution for your off-road vehicle! The G.E.A.R. seat cover is a completely new way of looking at storage for your off-road needs and fits factory and most aftermarket seats from 1976 to 2018. Each cover is completely adjustable and manufactured from 600 denier polyester with a PVC liner. Each seat includes pouches that fasten securely using a MOLLE/PALS Restraint System, which will not come loose under the harshest off-road conditions. Pouches can be moved around for ease of use or transferred to any backpack or bag with the MOLLE/PALS attachments. Seven pouches of various sizes are included with front seat covers. Five large multi-compartment pouches are included with rear seats covers. A removable American or Canadian flag is also included with each front seat cover as an added bonus! See part numbers on following page.

[A] HINGE TRAIL MIRROR		
YEAR	MODEL	PART#
2007-2018	Wrangler JK 2/4-DR	7618
1997-2006	Wrangler TJ	

The line of stainless steel accessories for the 2007-2018 Wrangler has been completely redesigned to offer you the highest quality parts available. Each part starts off as chunk of solid 304 marine grade stainless steel. It's then cast in a pretreated mold which provides a part guaranteed to meet OEM Specifications every time. Once the casting is complete each part goes through an electrostatic polishing process that creates a high quality mirror finish. When you want a quality part that will fit and is built to last look to Smittybilt!

OVERLAND GEN2 TENT & ANNEX

Few things are more rewarding than camping in the backcountry with family and friends, and roof top tents are a great way to set up camp in a hurry. Smittybilt's latest product, the Overlander Tents One man operation allows it to fold out in seconds to full height so you don't have to mess around with tent pegs and ropes like normal ground tents. Fully waterproof so you don't have to worry about being caught out in the rain. The Overlander tent offers all the features you need for the best camping experience.

OVERLANDER GEN 2 TENTS & ANNEXES

OVERLANDER GEN2 TENT

Overlander Rooftop Tent is designed for the serious traveling adventurer, with just the right combination of ease, comfort, convenience, and durability. The tent sets up in minutes, and gives secure, spacious above-ground sleeping quarters. The tent is completely self-contained, and all bedding and accessories are stored inside the tent during the trip, freeing up critical storage space and providing quick and easy tear down and packing. When you're looking for the ultimate in convenience, security, and comfort, look no further than the Smittybilt Overlander Rooftop Tent!

- Standard Tent Open size: 95" W x 56" L x 51" H
- XL Tent Open Size: 122" W x 76" L x 51" H
- Standard Tent Sleeps 2-3 | XL Tent Sleeps 4-3
- Bed size: Full, 92" x 55" | King, 92.5" x 74.8"
- Gray tent body with light gray rain-fly
- (1") 2.5cm aluminum/polyurethane sandwich base
- 600d heavy-duty rip stop polyester, waterproof and polyurethane-impregnated top
- Anodized aluminum tent frame poles
- Stainless steel hinges
- Lightweight, waterproof 420d oxford rain-fly

OVERLAND GEN2 TENT ANNEX

The Smittybilt Tent Annex easily attaches to the Smittybilt GEN2 Overlander Roof Top Tents to provide additional room and privacy when you need it. The annex easily attaches to the overlander tent in minutes using durable and rugged zippers. Made from the same durable polyurethane impregnated polyester, this annex will hold up under the tough conditions expected in overland exploration, and is the perfect addition to the overland tent when extra room is needed.

- Only works with Smittybilt GEN2 Overlander tent part numbers 2583 & 2683
- Provides extra privacy room for changing, clothes, sleeping or more
- Attaches to tent with rugged, heavy-duty zippers
- Heavy-duty, zippered removable floor keeps out mud and bugs
- Inner door flap allows easy access to your vehicle
- Side door and windows roll up for full access with underlying mosquito netting which can be opened or closed
- H 85" x W 70" x L 80"(XL)

GEN3 XRC WINCH

Faster. Stronger. Easiest to Use. The all-new XRC Gen3 Winch by Smittybilt has been designed from the ground up with innovative, user-friendly features and improved power efficiency. The 7.0 horsepower motor boasts an average line speed increase of 12% over its Gen2 predecessor, adding more speed and power with less AMP draw at load. The ergonomic remote controller has a Load Indicator Warning System, so you will always know how much your equipment can handle. Winching in dark conditions is also a breeze with the remote's built-in flashlight. If additional light is needed, a 12-volt power post is located on the control box. Two magnets are built into the controller for easy placement on any metal surface, leaving it out of the way when not needed. A high-viz clutch lever features large lettering, allowing you to see whether your winch is engaged/free spooled at a glance. Stylish body armor can be detached or used to customize your winch to your vehicle.

**FASTER. STRONGER.
EASIEST TO USE.**

The XRC Gen3 winch is available with 9.5k and 12k load-capacity options, and the COMP Series upgrade includes a synthetic rope and aluminum hawse fairlead.

Buy with confidence - these winches are backed by a lifetime mechanical warranty, a 5-year electrical warranty, and Smittybilt's legendary customer service.

- Available in 9,500 or 12,000lb. line pull
- Steel cable with roller fairlead or synthetic cable with hawse fairlead
- Stronger. Faster. Easiest to Use.
- Powerful, Industry-Best 7.0 HP Motor
- Increased Line Speed over Gen2
- Innovative New Load Indicator Warning System
- On-board lighting features for quick nighttime recovery
- High-Viz Clutch Lever
- Controller Flashlight and Dual Magnet Mounts
- Movable Control Box with 12V Accessory Power Post
- Customizable, Detachable Body Armor
- Daytime Running Light
- 3-Stage Planetary Gear System

XRC GEN2 WATERPROOF WINCH

The series of Smittybilt XRC winches have been thoroughly updated with heavy-duty features for enhanced performance and durability. Ranging from 9,500lb, Smittybilt's XRC winches can handle any situation you get into. The 6.6HP motor is connected to a 3-stage planetary gear system with revised gear ratios for increased pulling power and line speed. Every winch is finished in a rugged UV-resistant matte black coating with stainless steel hardware and oversized aluminum crossbars to provide you with a great looking system that will last you a lifetime. Every system includes a heavy-duty remote control. The redesigned solenoid box can be mounted in three locations on the winch for maximum versatility. Each winch also includes a four way roller fairlead and a forged hook. If you're after a winch equipped with a state-of-the-art synthetic rope, look to the XRC COMP Series for the ultimate in pulling power and performance. A Smittybilt XRC winch is a complete recovery system with the muscle and reliability to bail you out of any situation.

XRC ATV WINCHES
ATV • UTV • MARINE • TRAILER

The 2,000lb, 3,000lb, and 4,000lb XRC winches are some of the most powerful ATV winches on the planet today and come standard with more features and accessories than most winches in their class. These impressive little winches are also available in the COMP winches, which are fitted with synthetic rope and aluminum fairleads. When you're looking for performance, state-of-the-art components and quality, look to Smittybilt for a premium product at an economical price.

- Manufactured out of the 3/16" and 1/4" cold rolled steel
- Finished in a two-stage satin black powdercoat
- Battery terminals sold separately
- Fits up 12k winch

DESCRIPTION	PART#
Universal Winch Cradle	2811

RECOVERY ACCESSORIES

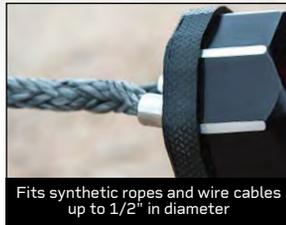

A.W.S. (ALUMINUM WINCH SHACKLE)

- Provides a safer and stronger winch point than standard winch hooks
- Easy install or removal
- Precision machined from lightweight billet aircraft grade 6061 T-6 aluminum
- Max load rating of 20,000 lbs
- Rugged, durable long lasting powder coat finish

20,000 LBS
MAX LOAD RATING

DESCRIPTION	PART#
A.W.S. Shackle	2820

Fits synthetic ropes and wire cables up to 1/2" in diameter

Works with roller and aluminum fairleads

Works with 3/4" and 7/8" D-Rings

POWER RECOIL SHACKLE ROPE

- Made from durable UHMWPE material
- Spliced on one end, knotted on the other
- Breaking strength of 34,000 lbs
- 1" rope creates 6" diameter when looped
- Floats

NOTE: Do not use on sharp corners or tow balls

DESCRIPTION	PART#
Soft Shackle Rope	13051-B

RECOIL KINETIC ROPE

- Heavy duty and flexible Nylon 66 material available in 30' lengths
- Each rope has 12 carefully woven strands to provide better elasticity and strength, and are spliced at both ends
- Max elongation is at 30% - gives you an added 30% of length
- Breaking strength at 30k lbs and 60k lbs
- Abrasion, mildew- and UV-resistant
- Storage Bag included

RECOIL ROPE	PART#
1" x 30' - 30,000 lbs	CC121
1 1/2" x 30' - 60,000 lbs	CC122

HOOKLESS ROPE

DESCRIPTION	PART#
Hookless Rope	87710S

SYNTHETIC WINCH ROPES

- UV and abrasion-resistant, specially coated to prevent slippage of the winch drum
- Floats - minimal weight - minimal stretch -torque free - non-rotational
- 1/7th the weight of steel cable
- Stainless steel thimble and coated hook with spring clip
- No kinks, curls or wire splinters
- Protective sleeve to prevent overheating

DESCRIPTION	PART#
11/32" x 100' 10,000LBS.	97780S
3/8" x 94' 10,000LBS.	97710S
7/16" x 88' 12,000LBS.	97712S
1/2" x 92' 15,000LBS.	97715S

SOFT SHACKLE

- Diameter of soft shackle - 7/16"
- Length of soft shackle - 21"
- Made out of ultra high molecular weight polyethylene (UHMWPE) synthetic fiber
- Rope diameter compatible up to 5/8"
- Soft shackle sleeve material made of polyester
- Rating: 33,863 lbs

RECOVERY RING

- Made of 6061 Aluminum
- Anodized with a clear coat
- Ring diameter - outer 4" inner 1-11/32"
- Rating: 33,000lbs

DESCRIPTION	PART#
Soft Shackle with Recovery Ring	2738

A

PREMIUM WINCH ACCESSORY BAG

- Heavy-duty 600-denier bag with strap
- 40,000lb. 8' premium tree trunk protector
- 17,000 lb. snatch strap

THE SMITTYBILT ADVANTAGE WARRANTY

For almost 70 years, Smittybilt has been the brand customers trust to outfit their Trucks and Jeeps with reliable, functional accessories. Our products are developed and tested by passionate off-roaders and made to withstand the roughest, toughest treatment on the trail. We understand the wear and tear these products will be subjected to and our goal is to provide a comprehensive warranty to give you confidence that the products you are outfitting your rig with will last for seasons to come. That's the Smittybilt Advantage!

HARD GOODS WARRANTY

Our products are built to last that's why all Smittybilt's steel-based products, such as bumpers, side steps and armor are warranted to be free from defect and are backed by a lifetime structural warranty, and a 5-year finish warranty.

WINCHES

Smittybilt's X20 GEN3 Winches, XRC GEN3 Winches and previous generations of X20 winches carry a lifetime mechanical warranty and a 5-year electrical warranty. XRC GEN2 Winches and all other Smittybilt Winches carry a lifetime structural warranty with a 3-year electrical warranty.

SOFT GOODS WARRANTY

Unless otherwise listed specifically, Smittybilt warrants our soft tops and other soft goods for a minimum of 1-year.

TENTS

Smittybilt takes pride in our line of overlanding tents and accessories and is proud to offer a 5-year limited warranty on our Hard-Shell Popup Tents, 2-year limited warranty on our GEN2 Overlander Rooftop Tents, and a 1-year limited warranty on our GEN1 Overlander Rooftop Tents.
